

Make Every Ride More Engaging

Introducing KONE Infotainment

KONE Infotainment transforms your building's elevator rides into a more enjoyable and informative experience for both residents and visitors. At the same time, it gives building managers a powerful, user-friendly way to share messages and updates.

Engage and Inform, Effortlessly

From top news and sports updates to fun trivia and local weather, KONE Infotainment offers curated content to keep riders engaged and informed.

Simple Control at Your Fingertips

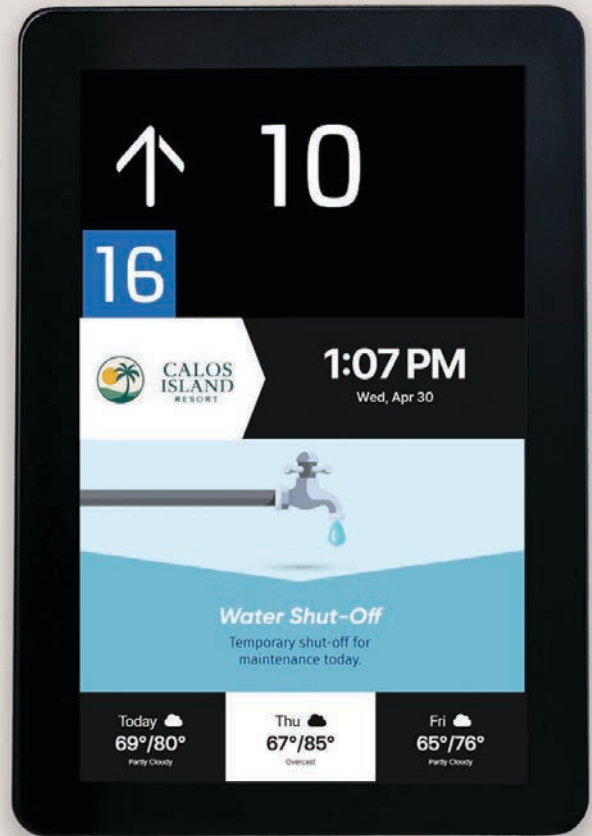

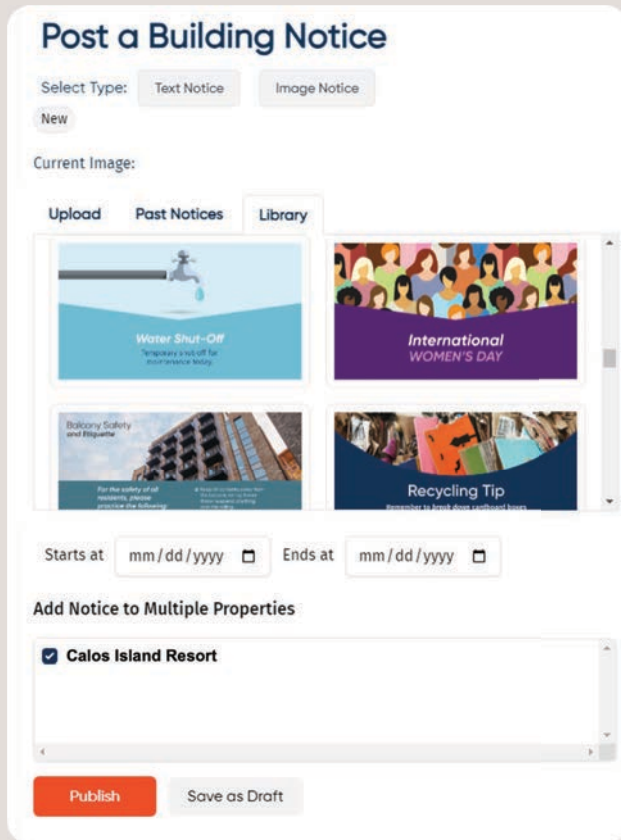

Using a secure, web-based interface, you can easily turn content options on or off and tailor the experience to suit your building's community. No technical skills required. Just log in from anywhere and customize.

Share Your Own Updates

Easily upload personalized content. Set start and end dates for personalized content, so your communications stay timely without extra work. Outdated notices are automatically removed.

- Custom images
- Building announcements
- Aesthetic visuals to match your brand
- Quick text-only notices with just a title and message

Use Templates or Start from Scratch

Need inspiration? A built-in library of ready-to-use templates helps you get started fast - or use your own designs to create a custom look and feel.

No Cost. No Hassle.

KONE Infotainment is available at no cost. The service is supported by occasional advertisements, which are thoughtfully placed between your building's content and curated updates.

To determine compatibility of your equipment with KONE Infotainment contact your KONE representative, visit kone.us/contact or use this QR code.
